

More than 40 years of global presence

The development of TH around the world

During the past decade, TH COMPANY has been expanding its international network, opening new country offices, and increasing its worldwide service network to become more global and closer to its customers. But the company's internationalization success story began 40 years ago, when TH, the company's mining division, was awarded with its 1st international projects in Poland and Belgium in 1992.

During the 90s, TH decided to focus on the European and Chinese markets, as well as Latam region, obtaining excellent references in France, Belgium, Brazil, Venezuela, Perú, Colombia and China.

In 2000, TH decided to expand to other regions and started to reinforce its agents network worldwide, which allowed the company to achieve great results that strengthened its global presence in Argelia, Australia, Belgium, Botswana, Croatia, France, India and Russia.

In 2013, TH COMPANY took the strategic decision to open its 1st office abroad in Mazatlán (Mexico) and continued to expand its office network with new offices in Ecuador, China and Peru during the following years. Agents network was also reinforced, and new projects were awarded in countries such as Costa Rica, Canada, Vietnam, Chile, the United States, Bolivia and in the Middle East.

During 2020, TH has opened a new country office in Kolkata (India) to strengthen the company's position in the Asia Pacific region and presence in America, has been strengthened with 2 new offices in Ecuador.

With a global presence in more than 40 countries, country offices in America, Asia and Europe and a broad network of agents all over the world, TH COMPANY has become a major technological partner for the mining, industrial minerals, aggregates and environmental industries worldwide.
